

Our 2016–2017 Home

Four months of deliberations have ended in the successful signing of a one-year lease agreement between the Zeta-Upsilon Zeta House Corporation and the Sigma Nu House Corporation for the property at 300 Tallawanda Avenue in Oxford. The lease is for the year beginning August 1, 2016, and ending July 31, 2017. Brothers Arnie McGill, Mike Lowder, and Bill Morris have put in many, many hours to bring this to fruition, as has Andy Reed of the Sigma Nu House Corporation.

The agreement includes the right of our brothers to use the facility for recruitment purposes, starting January 22 and running through January 29. The house has a maximum capacity of 45.

The Sigma Nu chapter is currently one of five suspended Miami fraternities (along with two sororities), so there is a good chance that we will be able to extend the lease for a second year.

A few quick reactions:

Brother Derylo: *Amen. Hopefully the beginning of a new era.*

Brother Bonsteel: *Amazing. I remember standing in the back yard at 307 Bishop, watching that house burn down in 1978 or 1979. Good work everyone!*

Brother Jim Harper: *Outstanding!*

Brother Raymond: *We have permission to use the facility for recruitment! I have our letters in storage at my house as well as about 50 composites. As soon as the chapter gets a moving team together, they will be back in Zeta-Upsilon's new home. Congratulations! Now let's get busy and fill the place with happy brothers!*

Brother Mulligan: *We will be able to put our LXA letters up.*

Brother Daughters: *Fantastic news, brothers. Thank you for all who were involved to make this happen!*
